Career Summary

Efficient entry-level programmer with proven skills in Dart using the Flutter framework and web development with PHP and MySQL. Seeking to apply knowledge of HTML, CSS, JavaScript, and modern web technologies to build responsive, user-friendly applications while growing in a dynamic environment.

Career Objective

Willing to work with an organization where honesty, commitment, and dedication are valued and rewarded. Seeking a challenging position to utilize my practical knowledge, skills, and creativity for the growth and success of the organization. Passionate about building responsive, user-friendly applications and continuously improving technical expertise. My long-term goal is to develop into a highly competent professional and achieve a top-level corporate position through continuous learning and performance.
